

Nebraska EMSC Decal

Is your service pediatric ready? Nebraska EMS for Children has created a way to show the world that you are pediatric ready. A special decal has been created to attach to the back of your ambulance for everyone to see.

EMS Requirements for Nebraska EMSC Decal:

- Training: 80% of member of services needs to have had 2 hours of pediatric training every year.
- Community: Acceptable Examples: Bike Rodeo, Teddy Bear Clinic, Child Safety Seats, and any pediatric prevention activities.
- Equipment: 100% of the required essential pediatric equipment and supplies as outlined in natural guidelines.

Once you have completed one or all three requirements, send documentation to:
EMSC Program, c/o Debbie Kuhn, PO Box 95026, Lincoln, NE 68509.

EMSC will send you the main part of the decal and any or all of the colored rockers which were completed. Every year after you have completed the decal and continue to meet the requirements, a rocker with the year on it will be sent to you.
